

# UNICITY NEIGENE BALANCING RESTORATIVE EMULSION

Restoration is a careful process. Whether restoring a historical building or a piece of art, it requires a delicate touch with the proper tools. The same is true of restoring your skin. An ordinary lotion with everyday ingredients may make skin worse, causing breakouts and excess oiliness. Beautiful skin is attainable, but it requires the right tools.

Neigene Balancing Restorative Emulsion provides just the right touch to restore oily skin to health

and beauty. This ultra-light gel is easily absorbed and provides necessary long-lasting hydration for healthy looking skin. It contains carefully selected botanicals, vitamins, and peptides to support healthy skin while promoting hydration. The balanced formula won't block pores or cause breakouts, but will instead work to make skin matte and beautiful. With the balanced restoration of Neigene, your skin can be its own work of art.

## BENEFITS

Provides hydration and soothes dryness.\*

Promotes healthy skin through balancing oil production.\*

Won't block pores.\*

Helps improve the health and appearance of skin, including minimizing pores and shine.\*

Use a blend of botanicals and vitamins to help protect against the environment. \*

## SUGGESTED USE

Pump 1-2 times and gently smooth into the face.

Avoid contact with eyes.

## AUDIENCE

Primary Target: People who need a daily moisturizer that hydrates without blocking pores.

Secondary Target: Individuals who want to protect their skin against the environment.
